

# Play it Safe in Cyber Space

After viewing the video “Play It Safe in Cyber Space”, answer the following questions:

## **Be Careful** (What Can I Do?)

Why do you need to be careful about what you post online?

What are steps that you will take to be safe? (What personal information should not be posted online?)

If a person online does something that frightens me, I will:

## **Be Skeptical** (What Do Others Do?)

Why do you need to be skeptical about people you meet online and what they tell you?

If someone you meet online you private or personal questions about yourself (What are you wearing? Where do you live? What is your phone number?), how will you respond?

If a person that you meet online asks you for your picture, what will you do?

**Be Smart** (How can it affect me?)

How can postings on a social networking site affect you?

How can on-line postings affect your future?

If you find your page has inappropriate material on it, what will you do about it?

What advice would you give to a younger sibling or friend if they asked you if they should set up their own social networking site
